You will **NOT** want to miss this **enlightening** weekend as Dr. Janie helps us understand how **Health and Eternity** go hand in hand. These sessions will answer the questions...

Why did God give us the **health reform** message and **why** is it so **important?**

What does it have to do with **Christian character** maturity the **144,000** and the **end time prophetic message?**

How can we **share** this message with others **effectively?**
